Class 10	Percentage: 82
Class 12	Percentage: 72
Graphic Era Hill University	2021 - 2025
Bachelor of Engineering, Computer Science	

CARRIER OBJECTIVE

To work for an organization which provides me the opportunity to improve my skills and knowledge to grow along with the organization objective.

PROJECTS

SafePath: AI Companion for Women

The project aims to help women to travel alone anytime and anywhere, without being afraid of anything bad happening to them. The project uses K-Means clustering as the main Machine Learning model to identify the hot spots for crimes that have happened there in the past. If any deviation is detected the emergency contacts are informed of the same, potentially saving the life of the target user.

A portfolio website using frontend and backend technologies

Created a portfolio website using HTML, CSS, JavaScript and React to showcase skills in the field of web development.

Movie Recommendation System using Machine Learning

Created a Movie Recommendation system using Similarity score and Cosine Similarity aspects of Machine Learning.
